

Red Room

February 2020 Newsletter

Last month we started exploring the shapes circle and square. We did many activities to explore these concepts in texture, visual, and building. We talked about similarities and differences in the shapes. We also got to go outside and see if we could find these shapes. You can further reinforce these concepts at home by playing games with your child. You can hide the shapes, look for the shapes, and even make your own. Every moment is a teaching moment, have a blast learning with your child.

We also got to do an indoor snowball fight with paper! The snow has been hiding most of this month and we got creative. Then we turned our dramatic play center into a restaurant kitchen. The kids loved it!

Next month we are going to have a science theme. We will be exploring ice by painting, melting, and doing experiments. We are also going to partner with Kinder-Prep and do some science with our older class. Our Valentine's Day party will be Friday the 14th at 3:00 p.m. Please join us in celebration of being kind.

We are so excited to have all our new friends join us in January. If you have any questions, please stop in and visit our teachers. We would love to get to know you and your family. Stop in and visit with us at any time.

Special Events:

February 3rd – Dress in bright colors if you are predicting and early spring.
Dress in black or blue if you are predicting more winter.

February 14th – Valentine's Day party at 3. Dress in red, pink, or white

Classroom Needs:

- We are looking for light table accessories. X-rays, see through items, gems, etc.
- Ice experiments and ideas
- Parent volunteers to read to our class
