

Dear Parents,

First, January was a great month for The Green Room! We spent a lot of time doing a new study! We started the sand study, we have compared different types of sand, where we can find different types of sand and what kinds of animals live in sand all around the world! The kids have loved learning about this study and the little learning activities that go along with it!

This month we will be continuing this study along with Celebrating Valentine's day! We will have a great time decorating and making projects to decorate our room! We will be having a Valentine's day party so we encourage each child to bring valentines for the class and I will also put up a sign-up sheet for parents to sign to bring snacks and drinks!

Last, but not least, I want to welcome our new kiddos that started earlier in January! They are doing so well and I am beyond excited to have all of them in my class for the next few months!

Love, Miss Josie, Miss Nadja, and Miss Natalie
